

SUNDEEP MISTRY

231 The Vale, London, NW11 8TN · 07944107710

mistrysundeep@gmail.com – <https://mistrysundeep.pythonanywhere.com/>

As a dependable individual who takes on any opportunity with an open mind and eagerness to learn; I am currently seeking new experiences within the IT industry to learn new concepts and improve my current skillset. I have recently finished my degree at The Open University where I completed an Open Degree, focusing on Computer Science. Currently my focus is Java and Python, I also have some experience with JavaScript, HTML5 and CSS3.

EDUCATION

APRIL 2018 – SEPTEMBER 2021

THE OPEN DEGREE BSC (PREDICTED 2:2), THE OPEN UNIVERSITY

I have recently finished my 3rd year modules and am awaiting my final grade in November. I studied Web, Mobile and Cloud Technology, Software Engineering, Interaction Design and User Experience.

SEPTEMBER 2015-2017

COMPUTER SCIENCE GAMES BSC, BRIGHTON UNIVERSITY

I earned Certificate of Higher Education in Computer Science Games, I enjoyed the Web Development and Java modules.

SEPTEMBER 2013 - 2015

COMPUTER SCIENCE (LEVEL 3 BTEC EXTENDED DIPLOMA), STANMORE COLLEGE

- D*D*D*
- During this course I learned about project management, graphic design, coding concepts and basics in object-oriented programming.

- Managing and communicating the front of house staff on weekends ensuring that tables are cleared and set ready for the next customers to use.
- Working with others to split up task when closing the restaurant each night.
- Helping to ensure that orders are taken to customers as soon as they are ready and fixing any issues they may have.

SKILLS

- Java
- HTML5
- CSS3
- JavaScript
- Python
- Git
- Visual Studio
- IntelliJ
- PyCharm
- Spring boot
- Time management
- Team working
- Effective communication
- Flexibility

INTERESTS AND HOBBIES

Apart from coding, I have a great passion for cooking which I do regularly and experiment with different ingredients and recipes. My favourite recipe to make is a vegetarian Sheppard's pie which I have made for family and friends. I enjoy building computers, since the beginning of 2020 I have rebuilt my own computer, built a gaming system for a family member and a Linux based system for a personal NAS drive.

Streaming has become something I have started up in 2020 and am enjoying a lot. I try to stream twice a week; I would stream games from my computer or from my consoles. When I need to get out into the world, I would go for runs, ride my bike or travel into central London and explore.
